South Africa's school rugby ranking system.

Finally transparent.

Two rankings. One methodology the rugby world already understands. Every point out of 100. No black box. No mystery. Built on the same formula as World Rugby rankings — applied to South African school rugby for the first

RUGBY IGNITE + MATCHPULSE — TWO PLATFORMS, ONE ECOSYSTEM

Rugby Ignite is the ranking layer.

MatchPulse handles live scoring, match results, player profiles and team stats. Rugby Ignite reads that data and surfaces it as rankings. Two platforms, one ecosystem.

01 TRANSPARENT Open methodology. Built on the same formula used by World Rugby. Everyone who follows rugby already understands how the points system works.	02 LEGIBLE Out of 100. Every team rated on a scale everyone understands. 67.40 is meaningful relative to 58. No other platform defines the ceiling.	03 DUAL-TRACK Two rankings. All Time Ranking tracks sustained excellence. Season Ranking tracks right now. Same methodology, different lenses.
--	--	---

Transparency The methodology is open.	Accuracy Results drive everything.	Authority A proven system, applied with rigour	Passion Igniting a love of school sport.
--	---	---	---

The Product

All Time Ranking + Season Ranking + Methodology

02

Two rankings. One system.

ALL TIME RANKING		SEASON RANKING	
The long game. Accumulates permanently. Measures a school's true strength over time — not just one season. Built on the same formula used by World Rugby. This is where sustained excellence is recognised and recorded.		Right now, this season. Resets annually. Tracks current form. Strong schools stay competitive but a dominant or dismal season actually shows.	
Methodology	World Rugby points exchange	Season start formula	$50 + (0.25 \times (\text{All Time} - 50))$
Scale	0 – 100 points	Example	All Time 90 → starts season at 60
Resets	Never	K-factor	4 — higher than All Time
K-factor	1 per match	Margin multiplier	1.5× above threshold
Home advantage	Excluded	Upset multiplier	1.5× asymmetric
Province level	Win % only — not points exchange	Safety cap	±8 points max per match
K=1 makes the All Time Ranking very stable.			
A school must sustain performance over time to meaningfully shift.			

The key innovation — Asymmetric Upset Multiplier

RUGBY IGNITE'S OWN ADDITION TO THE WORLD RUGBY METHODOLOGY

One upset should not destroy a top team's season rating.

When a lower-ranked team beats a higher-ranked team, the upset winner receives the 1.5× multiplied gain — but the losing favourite is only deducted the base un-multiplied exchange. No other school ranking system does this.

UPSET WINNER	UPSET LOSER
+1.5× gain	Base loss only

ALL TIME RANKING					Updated after every fixture	
#	Team	Win%	Points	+/-	±Pts	
1	Paarl Gimnasium	88.24	67.40	—	0.00	
2	Paul Roos Gimnasium	77.94	64.98	▲1	+0.40	
3	Grey College	86.15	64.43	▼1	-1.41	
4	Paarl Boys High	76.39	64.29	▲2	+1.58	
5	Afrikaanse Hoër Seunskool	73.53	63.14	▲2	+1.41	
6	Garsfontein	75.38	63.09	▼1	+0.03	

Strategy

Differentiators · Positioning · Tagline Territory

03

What no other platform offers.

 A known methodology World Rugby's points exchange is already understood by every rugby fan. No explanation required. The methodology is the credibility.	 A ceiling of 100 Out of 100 gives every data point immediate meaning. 67.40 is instantly understood. 90+ would be extraordinary. No other SA school platform defines the ceiling.
 Two complementary lenses All Time Ranking for the long game. Season Ranking for right now. No other platform distinguishes sustained excellence from current form.	 The asymmetric upset rule Purpose-built for school rugby. Giant-killers are properly rewarded. Top teams aren't destroyed by one bad day. No other system has solved this.

TAGLINE TERRITORY — NOT YET FIXED	
 <i>The ranking system school rugby deserves.</i>	Recommended. Leads with product.
<i>Finally, a school rugby ranking that makes sense.</i>	Conversational. Strong on social.
<i>Every match counts.</i>	True to the methodology.
<i>The table doesn't lie.</i>	Provocative. High-trust signal.

Logo

The Mark — Colourways, Lockups & Usage Rules

04

The Mark

A shield that signals authority. A flame that means ignition. The shield is the institution — the weight of the game's history. The flame is the passion that drives competition. Two elements. One colour. Nothing extraneous.

NEVER DO THIS

- | | |
|---|--|
| ✗ Do not use a PNG screenshot of the logo — always the master PDF | ✗ Do not rotate, skew or flip the logo |
| ✗ Do not add drop shadows, glows or outer effects | ✗ Do not stretch or distort proportions |
| ✗ Do not change the logo colours outside the approved system | ✗ Do not place on a busy background without a colour block |
| ✗ Do not reproduce the wordmark in any other typeface | ✗ Do not apply the icon on red or orange backgrounds |

Colour

Palette · Roles · Application Ratio · Mockups

05

The Palette & How to Use It

The palette is correct — Night, Ember, Chalk, Gold. The problem in earlier applications was using dark colours on every surface. White carries content. Night frames structure. Ember signals what matters.

COLOUR RATIO ACROSS ALL MARKETING SURFACES

White/Off-white 65%	Night 20%	Light 10%	5%
---------------------	-----------	-----------	----

01 White does the work Off-white is the primary surface for all content. Never Night.	02 Night frames, never fills Night is for nav, footer and hero sections only.	03 Ember signals, never decorates Ember appears only where it must. Max 5% of any composition.
--	--	---

PRIMARY

Night Structure #0F1923 · C:93 M:72 Y:55 K:63 Navigation, footer, hero. Never default page bg.	Ember Signal #E8360A · C:0 M:88 Y:100 K:5 #1 position, live badge, primary CTA. Max 5%.	Chalk Text on dark #F4EFE6 · C:3 M:5 Y:9 K:0 Body text on Night surfaces. Never on light.
--	---	---

SECONDARY & FUNCTIONAL

Off-white Primary surface #F7F4F0 Default page background.	Light Secondary surface #EDEAE5 Zebra rows, borders.	Flint Body text #4A4A4A All copy on light surfaces.	Gold Season / #2–3 #C9973A Season accent, #2–3 rows.	Ember Tempered Links #C4401A Every inline link. Not full Ember.

07

Brand Voice

Direct. Data-led. No manufactured drama. Rugby Ignite speaks to the rugby market — fans, coaches, parents and media who want a ranking system they can trust and understand.

Authoritative not Arrogant The methodology earns the confidence. State it once, plainly, then let the data speak.	Data-led not Stats-obsessed Every claim is grounded in the numbers. The table creates its own drama. Don't inflate it.
Direct not Blunt Short sentences. Active verbs. No padding. The rugby community has zero patience for vague copy.	Transparent not Technical The open methodology is an asset. Share it simply. Complexity never obscures.

DO / DON'T

✓ DO Paarl Gimnasium hold top spot with 67.40 points on the All Time Ranking after gaining 0.34 from the weekend result.	✗ DON'T PAARL GYM ARE ABSOLUTELY DOMINANT — can anyone stop them?!
✓ DO Season Ranking resets annually. A school at All Time 90 begins the season at 60 — competitive, but earnable.	✗ DON'T It's complicated to explain but the season ranking kind of resets or something.
✓ DO Built on the same formula as World Rugby rankings. Out of 100. Updated after every fixture.	✗ DON'T Our proprietary algorithm uses advanced statistical modelling to compute dynamic relative performance metrics.

SAMPLE COPY

ALL TIME RANKING	The All Time Rankings are the long game of South African school rugby. Built on the same formula used by World Rugby, they measure a school's true strength over time — not just one season.
SEASON RANKING	The Season Ranking tracks which schools are performing right now — this season, this year. It rewards teams who beat stronger opposition and punishes those who drop points against weaker sides.
MATCH UPDATE	Paul Roos move up to second on the All Time Ranking after their win over Stellenberg, gaining 0.40 points to reach 64.98. Grey College drop one place to third.
